**Location of project:** 811 Duckview CT, Winston-Salem, NC

**Scope of work:** Refinishing hardwood floors. Removing scratches, leveling where needed, and filling gaps and cracks as needed. Starting at a stripping grit and working up to a smooth finish grit. Maintaining dust free sanding by using a series of vacuums, dust collectors, and dust extractors.

After stripping and sand, all floors will be thoroughly cleaned of dust and debris. A sealer coat will be applied and fine sanded to a smooth finish once dry enough to do so. After that, a series of finish coats will be applied until desired thickness is achieved. Finishes can be matte, satin, semi gloss, or gloss, depending on customers choosing. Floor will be done in 2 phases

**Estimated time of completion:** 3 days for first phase, 2 days for second phase

Items of work & material	Price
Stripping, sanding, and leveling	
Cleaning and prepping for finish	
Final cleanup	
Paper, sealer,dust bags, finish, sanding equipment etc.
